

FEDI AFLI

Computer Science Engineering Student

Location: Bizerte, Tunisia

Phone: +216 29 337 633

Email: f3diafli@gmail.com

Portfolio: fedi-afli.github.io/portfolio

GitHub: github.com/fedi-afli

PROFESSIONAL SUMMARY

Computer Science Engineering student (23) with a strong technical foundation in full-stack web development, DevOps, mobile engineering, and AI/Data systems. Proven track record of delivering end-to-end client applications from architecture to production deployment. Passionate about clean software architecture, automated CI/CD pipelines, real-time data streaming, and agentic AI systems.

SKILLS & TECHNOLOGIES

Web Development:	Angular (90%), Spring Boot (95%), Express.js (90%), React (60%), Tailwind CSS, Bootstrap
DevOps & Cloud:	Docker (90%), Kubernetes (70%), CI/CD (Jenkins, GitLab CI) (70%), DevSecOps (70%)
AI & Data Engineering:	Python (90%), SQL / NoSQL / PostgreSQL (90%), LangChain, Ollama, Apache Kafka, Apache Spark, ClickHouse
Mobile Development:	Flutter (80%), Dart (80%), Android Studio (75%)
Core Programming:	JavaScript / TypeScript (85%), Java (80%), C/C++ (60%), Data Structures & Algorithms
Tools & Environments:	Git / GitHub, Linux (90%), VS Code, IntelliJ IDEA

PROFESSIONAL & INTERNSHIP EXPERIENCE

Full-Stack Web Developer | Felblad (Client Project)

2026

Spring Boot • Angular • MySQL • Tailwind CSS

- Independently engineered, designed, and deployed **Charik.tn**, a full-stack web platform delivered from initial concept to live production for a real client.
- Implemented secure user authentication, reactive forms, and scalable backend API endpoints.

DevOps Intern | Beehive Enterprises

2025 – 2026

Jenkins • GitLab CI • Docker • DevSecOps • Infrastructure Automation

- Architected and deployed an end-to-end automated DevOps pipeline in a live production environment.
- Configured automated CI/CD workflows, containerized microservices, and integrated DevSecOps security scanning protocols.

Full-Stack Developer Intern | CST (Canadian System Technologies)

Summer 2025

React • Spring Boot • TypeScript • PostgreSQL • Tailwind CSS

- Independently developed **Chronovia Store**, a full-featured e-commerce platform with product management, authentication, shopping cart, orders, and an admin dashboard.
- Delivered high-performance front-end components integrated with robust Spring Boot REST microservices.

KEY PROJECTS

Real-Time Streaming Data Warehouse for E-Commerce

PostgreSQL • Debezium CDC • Apache Kafka • Apache Spark • ClickHouse • Streamlit

- Built a real-time CDC analytics platform streaming PostgreSQL transactions through Kafka and Spark to ClickHouse DB for live dashboards.

Live Threat Detection System

FastAPI • PySpark • Apache Kafka • Docker Compose

- Engineered an event-driven SecOps platform analyzing live server log streams with behavioral anomaly detection and real-time visualization.

CampusHub — Agentic University Web App

Express.js • Python / LangChain • Ollama • NVIDIA Agents • NoSQL

- Developed an AI-powered student assistant to track/justify absences via computer vision and automate academic workflows.

Barber Shop Booking System

Spring Boot • Angular • MySQL • Tailwind CSS

- Designed a web booking platform featuring real-time appointment scheduling, user profiles, and an interactive admin panel.

EDUCATION

Engineering in Computer Science

2024 – Present

Focusing on software architecture, distributed systems, DevOps, and advanced algorithms.

Integrated Preparatory Cycle

2022 – 2024

Faculté des Sciences de Bizerte — Mathematics, Physics, & Computer Science.

Baccalaureate in Computer Science

2021 – 2022

Lycée Khayer Eddine Ariana.

CERTIFICATIONS

AWS Data Engineering

Amazon Web Services (2026)

Microsoft Office Specialist: Word Expert

Microsoft (2023)

Microsoft Office Specialist: Excel

Microsoft (2023)

Microsoft Office Specialist: PowerPoint

Microsoft (2023)
