

FEDI AFLI

Computer Science Engineering Student

f3diafli@gmail.com · +216 29 337 633 · Bizerte, Tunisia · github.com/fedi-afli

SUMMARY

Second-year Computer Science Engineering student with a strong foundation in full-stack web development, DevOps, mobile development, and AI-driven applications. Experienced through two professional internships and a portfolio of end-to-end projects spanning e-commerce, agentic AI, social platforms, and system utilities. Passionate about clean architecture, automation, and building solutions with real-world impact.

TECHNICAL SKILLS

Languages	JavaScript / TypeScript · Python · Java · C / C++ · Dart
Web	React · Angular · Express.js · Spring Boot · Tailwind CSS · Bootstrap
DevOps	Docker · Kubernetes · Jenkins · GitLab CI · DevSecOps
Data	SQL · PostgreSQL · NoSQL · Data Structures · Algorithms
Mobile	Flutter · Android Studio · Dart
Tools	Git / GitHub · Linux · LangChain · Ollama · NVIDIA Agents

INTERNSHIP EXPERIENCE

DevOps Intern | *Beehive Enterprises* | 2025–2026

- Designed and deployed a professional end-to-end DevOps pipeline in a real production environment.
- Implemented CI/CD workflows using Jenkins and GitLab CI, containerization with Docker, and infrastructure automation.
- Applied DevSecOps practices to integrate security checks throughout the delivery pipeline.

Full-Stack Developer Intern | *Canadian System Technologies (CST)* | Summer 2025

- Independently developed Chronova Store, a fully functional e-commerce platform, from design to deployment.
- Built with React, Spring Boot, TypeScript, PostgreSQL, and Tailwind CSS.
- Gained hands-on experience in professional software development workflows and client delivery.

PROJECTS

CampusHub — Agentic University Web App — Express.js · Python LangChain · Ollama · NVIDIA Agents · NoSQL

Full-featured agentic platform for university students. Enables absence tracking and justification via a computer-vision AI agent, and automates administrative tasks through an advanced AI assistant powered by Ollama and NVIDIA agents.

Chronova Store — E-Commerce Platform — React · Spring Boot · TypeScript · PostgreSQL · Tailwind CSS

Complete e-commerce web app built during internship at CTB Enterprise. Features product browsing, authentication, shopping cart, order management, and an admin dashboard.

SocialSphere — Professional Networking Platform — Express.js · Tailwind CSS

LinkedIn-inspired platform enabling professional networking, content sharing, and career growth in a modern social environment.

University Mobile App — Attendance Management — [Flutter](#) · [SQL](#) · [PHP](#)

Flutter-based school attendance system with role-based access control for admins, teachers, and students.

Social Media Web App — [Java \(Maven\)](#) · [SceneBuilder](#)

Full-stack social media application featuring authentication, user profiles, and real-time posting.

CPU Scheduling Simulator — [C](#) · [Algorithms](#)

C application to simulate and visualize CPU process scheduling algorithms including FCFS, SJF, and Round Robin.

Library Management App — [Python](#) · [Tkinter](#)

GUI-based Python application for managing library books, borrowers, and due dates.

EDUCATION

Engineering in Computer Science — 2nd Year

École d'Ingénieurs · 2025–2026

Coursework: software architecture, distributed systems, DevOps practices, advanced algorithms.

Engineering in Computer Science — 1st Year

École d'Ingénieurs · 2024–2025

Advanced programming, software engineering principles, and specialized CS domains.

Integrated Preparatory Cycle

Faculté des Sciences de Bizerte · 2022–2024

Mathematics, physics, and fundamental sciences — preparation for engineering studies.

Baccalaureate in Computer Science (Sciences Informatiques)

Lycée Khayer Eddine Ariana · 2021–2022

Focus on programming, algorithms, mathematics, and general sciences.

CERTIFICATIONS

Microsoft Office Specialist — Word Expert, Excel, PowerPoint (2023)

AWS Data Engineering — Amazon Web Services (2026)
